WHELEN
MANUFACTURED IN AMERICA

Driven by Quality.

Whelen Engineering is driven by a single standard: build it tough, build it right, and build it here. Our commitment to durability, performance, and American craftsmanship ensures every product is ready to perform when it matters most.

Explore our industry-leading solutions at whelen.com.

M9 Series
The Whelen M9 lighthead is a high-intensity LED warning light for emergency and service vehicles. It delivers bright, wide-angle illumination with customizable flash patterns for maximum visibility and safety.

CenCom Core®
The CenCom Core is Whelen's advanced control system, letting operators manage lights, sirens, and other equipment from a single interface. It simplifies vehicle operations while providing precise control and reliability.

Field Series®
The Field Series is a compact, low-profile LED scene light designed for versatile mounting anywhere on the vehicle. It provides powerful illumination without taking up much space, making it ideal for tight installations.

Freedom® IV
The Freedom IV is a powerful, full-featured LED lightbar designed for emergency and service vehicles. It delivers intense, 360-degree illumination with customizable modules and flash patterns for maximum visibility in any environment. Built with a rugged, weather-resistant housing, the Freedom IV ensures reliable performance and long-lasting durability on the road.

Skeeter
EMERGENCY VEHICLES

Our roots began in 2008 as Emergency Equipment Repair in Kirby, Texas. In 2009, we became **Skeeter Emergency Vehicles** (***SEV***) as an acquisition—joining the Siddons-Martin Emergency Group. Now part of a world-class family of fire service manufacturers, Skeeter grew rapidly—expanding our facilities at our Hillsboro location.

In 2022, **Skeeter** acquired EJ Metals in New London, Wisconsin—now known as Skeeter North. We continue to produce EJ Metals' patented products, including dump chutes, UHP systems, Gull-Wing, UTVs, and wildland apparatus. As our reputation for excellence continues to grow, we will continue to invest in our assets to meet those demands.

SEVERE-DUTY, OFF-ROAD
WILDLAND SOLUTIONS

Skeeter Emergency Vehicles is an employee-owned (ESOP) entity. Our team is vested in our success and takes great pride in the products we produce. We build high-performance apparatus for the most respected professionals in the world—firefighters.

CUSTOM CRAFTED

ATTENTION TO DETAIL

SEV operates LEAN! Our manufacturing processes foster an efficient and safe work environment. In addition to the fabricators, assemblers, and parts technicians, **SEV** employs teams of engineers, contract managers, and quality control personnel to deliver sound products as quickly as possible.

SEV offers a wide variety of products that have already been designed and engineered to meet the extreme demands of the fire industry. Our configurations are nearly endless, giving our customers the ability and power to choose options that target their unique challenges.

Our products meet all industry standards, including NFPA, DOT, and all safety guidelines. The needs of fire departments across the nation vary as much as their terrain and missions. **SEV** excels at aiding those departments with apparatus design and construction through our talented engineers.

FEDERAL SIGNAL

Learn more at fedsig.com/fire or call 800-264-3578

PATHFINDER® PF400Q

Available with the trademark Q-Tone

Leading the way with the iconic sound of authority. The Pathfinder® delivers 400 W of powerful, clear, multi-tone audio for fire commanders trying to clear the path. PF400Q models feature the classic Q-Siren® tone, blending tradition with modern control. Unified light and siren control helps fire fighters stay focused and operate efficiently.

We Answered the Call

Fully equipped Lights & Siren Controller

400-Watt Programmable Light and Siren Controller

Controller with remote-mount amplifier

Integrated Quad Tone

Capability when used with (4) speakers

(4) 100-Watt Independent

Supports four 100 W speakers, compliant with SAE J1849, NFPA Standards

Standard Voice Messages

Standard voice messages available to broadcast alerts. Custom voice messages available to order.

Rumbler® and Multi-Tone Capability for Maximum Response Where It's Needed Most

Rumbler®

Rumbler low frequencies deliver up to 10 dB more sound pressure inside civilian vehicles near your emergency vehicle — getting attention and clearing traffic more effectively than a standard siren tone.

Multi-tone

Provides a 50% increase in audible warning distance vs. a single-speaker/single-tone system. Multi-tone creates the perception of a multi-vehicle, emergency response ideal for highway response.

ALLEGIANT® MAX

Built for tough fire service use, the Allegiant® Max is a low-profile, linear LED light bar engineered for maximum visibility and durability in critical response situations. From fire scenes to emergency roadways, Allegiant Max helps ensure your apparatus is seen—and your crew stays safe.

IDEX FIRE & SAFETY

FOR THE ONES WHO FIGHT THE WILDEST FIRES

With the world's most reliable fire and rescue equipment by IDEX Fire & Safety, you and your brush truck will be ready for the call, from the forest front lines to off-roading in remote areas.

WILDCAT

Roam Anywhere with WildCAT

WildCat is an intuitive multi-station control, designed to simplify the essential operations of your fast-attack brush truck.

- Instant control of pump & water flow
- Time-saving design for rapid response
- Integrated vehicle lighting control
- Glove-capable touchscreens
- Space-saving design in-cab
- Easy-to-use interface
- Minimal training required

haleproducts.com HALE

PORTABLE PUMPS

Waterflow in the Wild

Designed for wildland firefighting fleets, Hale's portable, high-pressure pumps are backed by a century of expertise you can trust.

- Wide flow range for controlled power
- Anodized aluminum alloy pump head and body
- Self-adjusting mechanical seal

Unleash ultimate power with high-volume engine-driven pumps preferred by most firefighters.

haleproducts.com HALE

WILDLAND MONITORS

Monitors Made to Withstand It All

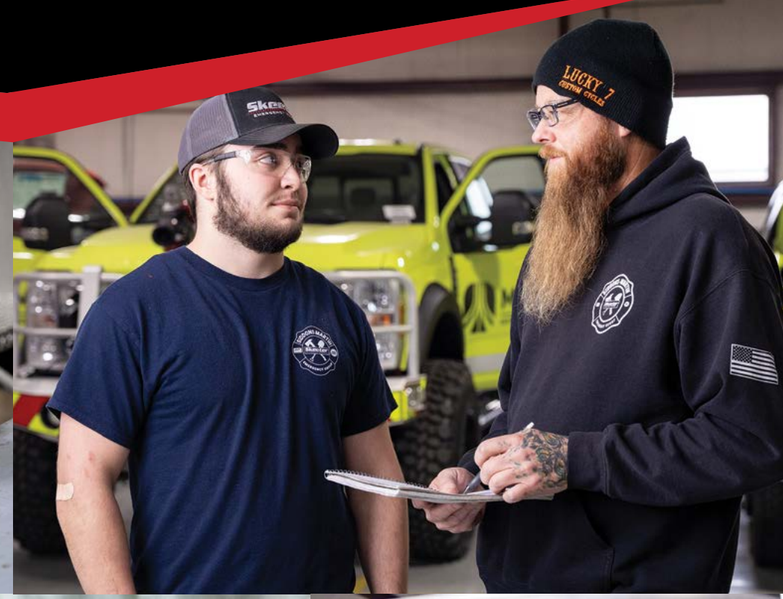

Built for brush and rugged terrain, compact monitors by Akron Brass are ready to move with you. Fast, powerful, and designed to unleash precise waterflow on the go.

- Advanced remote control operation
- Waterproof design for durability
- Compatible with a wide range of nozzles

THIS IS WHAT OWNERSHIP LOOKS LIKE

ESOP

EMPLOYEE STOCK OWNERSHIP PLAN

Our team takes great pride in the testimonials, in-action pics, and videos our customers send us. We've even seen our apparatus on television, supporting rescue efforts like those in Maui, Hawaii.

When you have a business that manufactures products for the world's greatest career—firefighting—and then pair that career with being an employee owner, you create a work environment that is second-to-none. The foundation of our reputation for excellence is forged by the people who live and breathe the business day in and day out.

PLAS-MAC, INC.

When Only the Best Will Do

Firefighters and apparatus manufacturers call Plas-Mac, Inc. because of our high-end, trouble-free tanks and service after the sale.
